What did you like most about this course and/or the instructor's teaching?

He is excited, knowledgeable, and a good teacher. The assignments helped me learn and he was helpful in office hours. The organization is superb. Jay is bigger than many of his students.

What about this course and/or the instructor's teaching needs change or improvement?

The exams should not be randomized; if I had had the exam I saw some others get, I would have done worse.

Additional comments:

♡ Jay he is legend

What did you like most about this course and/or the instructor's teaching?

Constant flow of information. Frankly I liked that we don't have to memorize all the details, but the overarching theories that the details, proofs, etc. represent.

What about this course and/or the instructor's teaching needs change or improvement?

Please zoom out more often. It's really easy to get lost in details of a proof and not recall even why such and such is even being proved. The classes & review just before the exam class period were the most helpful since they were the most overview-like & zoomed out perspective on the content — which is exactly what was needed for exam-writing.

Additional comments:

Can tell you love the subject, keep up the awesome teacher!

Written comments about this course and your instructor are encouraged. Please be assured that these forms will not be returned to your instructor until after grades are submitted.

What did you like most about this course and/or the instructor's teaching?

Jay had very good explanations and analogies for understanding course material. Essays and Exams were graded in record time.

What about this course and/or the instructor's teaching needs change or improvement?

The syllabus really needs its details ironed out, there are some vague elements like the essay prompt that require further explanation. I also think essays need more detail on why they were graded, the values seem like predefined constants

What did you like most about this course and/or the instructor's teaching?

Jay showed a distinct interest in helping us learn. Class time was used effectively & enthusiasm for the material was evident.

What about this course and/or the instructor's teaching needs change or improvement?

A few more assignments to take the weight off any one assignment. Essay standards were unrealistic in my opinion.

Additional comments:

I look forward to taking another class
w/ Jay.

What did you like most about this course and/or the instructor's teaching?

Jay prepared to teach this class. He knows all the material, and can write programs on DFAs, NFAs, and TMs on the spot. Kept students' attention. Exams reflect big ideas.

What about this course and/or the instructor's teaching needs change or improvement?

Homework not required until final presentation. Students often don't do homework until the presentation requires it.
