Written comments about this course and your instructor are encouraged. Please be assured that these forms will not be returned to your instructor until after grades are submitted.

What did you like most about this course and/or the instructor's teaching?

Professor's willingness to help students. Jay was always accessible.

What about this course and/or the instructor's teaching needs change or improvement?

There should be more than two checkpoints to make sure the students are not behind. It feels impossible to finish all the tasks, maybe it could be reduced so students can get further.

What did you like most about this course and/or the instructor's teaching?

The project is fantastic — excellent teaching tool.
Learned a lot.

What about this course and/or the instructor's teaching needs change or improvement?

Instructor should be more proactive in supporting students' success. The project is very rewarding, but students need constant support (especially in the beginning of the course) to stay on track. More work for the instructor, but more success for students.

What did you like most about this course and/or the instructor's teaching?

The professor always knew what he was talking about and has a deep understanding of the whole course material.

What about this course and/or the instructor's teaching needs change or improvement?

Additional comments:

The catalog on UML website says there is no programming so when I found out the course had only programming I was very disappointed.
